## good reasons

! **Knowledgeable**, competent, experienced union representatives on site, personal service, always up to date.

! **Fair pay**, good working conditions, guaranteed free time, carefree vacations.

! **Scale-pay increases**, leave and special allowances, health and retirement benefits, support during industrial action.

! **Against injustice**, arbitrariness, and dismissal. For a secure future with a reliable income, solid pensions and protection against illness and job loss.

! **The security** having a strong community of solidarity at your side, even in difficult times.

! **Have your say**, get involved, help shape the company and society.

! **Seminars**, education and training, new knowledge and skills. So that employees' interests are expressed in a qualified manner.

! **Member newsletter**, up-to-date leaflets and information.

! **More than 150 years** of successful struggle against exploitation and for social justice. Securing, expanding and defending the achievements and unmistakable successes that have been made.

! **The best argument**: becoming membership. If you are convinced, why leave your colleague out of it? Anyone who is convinced can also convince others.
